## SUMMARY

As a Computer Engineer from the Technical University of Munich, I have cultivated a global perspective, being born in the U.S., raised in Brazil and educated in Germany. My diverse background enriches my technical expertise with exceptional communication and interpersonal skills, enabling me to be an effective team player and collaborator. Currently based in New York, I am completing my master's program through a research collaboration with Dr. Sivaraman from NYU.

## EXPERIENCE

### EDA Department - TU Munich | *Research Assistant*

Jul 22–Oct 22, Oct 20–Mar 21

Two-Part internship, where I aided in developing a research Design-Space-Exploration framework that needed to:

- Run optimally the inference of Machine Learning Models across heterogeneous hardware (GPUs, CPUs, TPUs).
- Analyze traffic costs via processing USB traffic between the host and Google's Coral Edge TPU.

### Molabo GmbH | *Internship - Embedded Engineer*

Aug 21 – Jan 22

Assisted the motor-drive team in developing:

- Streamlined workflows via Jenkinsfiles, CMake and GNU Make
- Features and Unit-Tests for their Embedded and FPGA Devices
- Internal Tooling such as a Linux virtual CAN interface to simulate communication within their systems

### RCS Department - TU Munich | *Tutor - Embedded Systems Lab*

Apr 21 – Aug 21

- Tutor for the Embedded Systems Programming Lab at TU Munich.
- Aided students in their embedded/multi-threaded FreeRTOS projects in C.
